SKILLS AND STRENGTHS

- **Software Engineering** – C++, DSA, Problem Solving, Git/GitHub, SQL, OOPS.
 - **Web Development** – HTML, CSS, JavaScript, ReactJS, NodeJS, Tailwind, Bootstrap, MERN Stack.
 - **Coursework** - RDBMS, Web Technology, Computer Networks, Operating Systems.
-

PROJECTS

- **Dice Game:** This interactive Dice game is crafted using a combination of HTML, CSS, and JavaScript. Players can enjoy a basic yet engaging gaming experience; however, to initiate each play or view results, refreshing the screen is required.
 - **Portfolio Website:** My portfolio website is meticulously crafted through a blend of HTML, CSS, Bootstrap and JavaScript. This amalgamation of technologies ensures a seamless and responsive platform that showcases my work, skills, and experiences in a professional manner.

WORK HISTORY

- **IEEE RAS -**
Head of Promotions, Feb 2023- Oct 2023

I conducted successful promotions that took our events to new heights, leaving a lasting impact on our audience. As the Head of Promotions at IEEE RAS, I led successful campaigns for events like Robo Soccer and Follow the Maze. Robo Soccer wowed crowds with robots showcasing incredible soccer skills, drawing over 100 spectators. Follow the Maze showcased robot innovation, impressing audiences with precise navigation through intricate mazes.

- **BUZZPOWER.IN-**
Digital Marketing, Jul 2023- Nov 2023

As the social media manager at Buzzpower.in, I crafted and executed strategic plans to boost online engagement and shape the company's digital presence. Working closely with start-up founders, I implemented effective strategies for organic growth, creating a strong connection between the brand and the audience. My efforts contributed to the start-up's success and established a memorable online legacy.
