CAREER SUMMARY

My versatility sets me apart for these roles. As a Software Engineer, I possess a knack for problem-solving and quick adaptation to diverse programming languages. In Web Development, I create user-centric, responsive websites, balancing aesthetics with functionality. My ability to seamlessly navigate between technical expertise, design sensibilities, and data-driven marketing strategies makes me a well-rounded asset across these domains.

SKILLS AND STRENGTHS

- **Software Engineering** – C++, DSA, Problem Solving, Git/GitHub, SQL, OOPS.
 - **Web Development** – HTML, CSS, JavaScript, ReactJS, NodeJS, Tailwind, Bootstrap, MERN Stack.
 - **Coursework** - RDBMS, Web Technology, Computer Networks, Operating Systems.
-

PROJECTS

- **Amazon Clone:** This website replicates the layout and design of Amazon's homepage using solely HTML and CSS.
- **Dice Game:** This interactive Dice game is crafted using a combination of HTML, CSS, and JavaScript. Players can enjoy a basic yet engaging gaming experience; however, to initiate each play or view results, refreshing the screen is required.
- **Drum Roll Kit:** This project showcases a dynamic drum kit implemented through HTML, CSS, and JavaScript, encompassing a comprehensive range of programming concepts. User interaction involves activating both animations and diverse drum sounds by clicking on designated button, offering an immersive and interactive experience.
- **Portfolio Website:** My portfolio website is meticulously crafted through a blend of HTML, CSS, and JavaScript. This amalgamation of technologies ensures a seamless and responsive platform that showcases my work, skills, and experiences in a professional manner.

WORK HISTORY

- **IEEE RAS -**
Head of Promotions, Feb 2023- Oct 2023

I conducted successful promotions that took our events to new heights, leaving a lasting impact on our audience. As the Head of Promotions at IEEE RAS, I led successful campaigns for events like Robo Soccer and Follow the Maze. Robo Soccer wowed crowds with robots showcasing incredible soccer skills, drawing over 100 spectators. Follow the Maze showcased robot innovation, impressing audiences with precise navigation through intricate mazes.

- **BUZZPOWER.IN-**
Digital Marketing, Jul 2023- Nov 2023

As the social media manager at Buzzpower.in, I crafted and executed strategic plans to boost online engagement and shape the company's digital presence. Working closely with start-up founders, I implemented effective strategies for organic growth, creating a strong connection between the brand and the audience. My efforts contributed to the start-up's success and established a memorable online legacy.

EDUCATION

- GRADUATION - BTECH IT, 2021-2025, Manipal University Jaipur, Rajasthan (CGPA – 7.9)
- 10th – 2018-2019, Gwalior Glory High School, MP (Percentage – 94%)
- 12th – 2020-2021, Morning Star School, MP (Percentage – 91%)
